Price guide

CREAMERY *Kitchens*

As price is a sensitive issue, we fight hard to be as cost effective as possible, using local workshops that work efficiently. Given the bespoke nature of the product we'd say that the 'ball park' quote for an average kitchen, excluding appliances, is about £5k. Then there are huge savings to be made on fitting - whereas flat pack has to be built from scratch, our furniture walks straight in and usually takes a skilled fitter only a couple of days to install.

All prices shown exclude taps, appliances, delivery and fitting.

Victorian
